Dear Sir:

Applicant has received the Examiner's Statement of Reasons for Allowance with the June 21, 2004 Notices of Allowance and Allowability regarding the above-identified application. Entry of the Statement into the record should not be construed as any agreement with or acquiescence in the reasoning stated by the Examiner and should not be imputed to application. Moreover, each claim stands on its own merits and is patentable because of the combination it recites and not because of the presence or absence of any one particular element. Furthermore, the Examiner's Reasons for Allowance only address some of the limitations present in some of the claims and not all limitations of all claims.
